

Brenno

Francesco Binfaré

General description:

Natural leather- skillfully worked, and shaped in a new way- gives to the sofa a soft appearance, without constrictions. Structure is realized in plywood and metal, padding in Gellyfoam® is covered with a thick layer of goose down. The leather for the cover is purposely loose, without the elimination of the natural abundances, revealing the soft volumes beneath, so that comfort is perceived.

Use:

This sofa offers a wide and comfortable classic seating.

Technical description:
